### Trane CenTraVac™ Chillers: **Episode of HK G-PASS Double Platinum Labels**

Trane Hong Kong is on YouTube now: we take the lead in introducing our advanced and innovative **CenTraVac™** Centrifugal Chillers from USA. In this episode, we have invited Ir. Cary Chan, JP, Executive Director of Hong Kong Green Building Council (HKGBC) to share the professional assessment criteria of HK G-PASS and its strategic significance in promoting green building products in Hong Kong. Meanwhile, Mr. John Chan, General Manager of Trane Hong Kong shares the competitive advantages of CenTraVac™ with you.

CenTraVac™ combines the advantages of high-performance and environmentally-friendly design to meet the challenges of global climate change. This next-gen product also provides a complement to “Hong Kong’s Climate Action Plan 2030+” launched by the

Government so as to achieve much more effective reduction of carbon emissions.

### **Selected by HKJC Clubhouse, Citygate, HKUST & M+ Museum**

In addition, CenTraVac™ uses the next-gen environmentally-friendly refrigerant, R514A with low GWP. Most importantly, CenTraVac™ has already been awarded double Platinum Labels of HK G-PASS issuing by HKGBC. This further proves our leading environmental technologies and excellence in energy efficiency.

Today, our CenTraVac™ chillers @HFO have already widely adopted in various key projects including the Hong Kong Jockey Club Clubhouse in Happy Valley, HKUST, Citygate and M+ Museum of the West Kowloon Cultural District with superior performance in energy efficiency and sustainability.

## 【Trane CenTraVac™ Chillers 鉑金認證篇】

### HK G-PASS 鉑金認證冷水機 唯有 **Trane CenTraVac™**

特靈香港登陸 YouTube，率先為大家介紹美國最先進的創新科技產品——**CenTraVac™**冷水機組。

在主題為《**Trane CenTraVac™ Chillers 鉑金認證篇**》的短片中，我們請來香港綠色建築議會執行董事陳永康工程師太平紳士，與大家分享 HK G-PASS 綠材環評的嚴謹評審準則，及推動綠色建築的重要策略意義；而特靈香港總經理陳俊傑先生，則為各位介紹 CenTraVac™ 的各項優勢。

新一代 CenTraVac™ 環保系列冷水機組性能卓越，設計符合保護環境趨勢，能有效地配合香港政府擬訂的《香港氣候行動藍圖 2030+》，減

低冷氣排放對氣候變化的影響。

馬會會所、東薈城、科大、**M+**博物館俱選用 **Trane CenTraVac™**

特靈 **CenTraVac™** 冷水機組採用最新的創科設計，可使用新一代低 GWP 環保雪種 **R514A**，是迄今唯一獲得香港綠色建築議會頒發 **HK G-PASS** 中最高級別的鉑金評級、且兩度獲此殊榮的冷水機組，足證其環保效能超卓，技術表現首屈一指。

目前，本港已有多個大型建築採用新一代 **CenTraVac™** 環保系列冷水機組，包括香港賽馬會跑馬地會所、香港科技大學、東涌東薈城與西九文化區的 **M+**博物館等，反映本公司於空調科研上的成果廣受認同。
